Slide 1:

Hello and welcome to the Travis Unified Online Portal "First Time Log In Video." The goal of this video is to help you log in for the first time and attach your child to your account.

Slide 2 & 3:

Before you get started, you will want to make sure you have the letter from Travis Unified with your child's verification code, student permanent id, and phone number we have on file.

Slide 4:

When you are ready, open your web browser and type in www.travisusd.org and click on the A+ in the upper right corner.

Slide 5:

Log in by typing your email address and then click "Next"

Slide 6:

When finished, type in your password and click "Sign In"

Slide 7:

The system will ask you for the verification numbers in the letter. Please copy these numbers: Student Permanent ID Number in the appropriate box; Student Home Telephone Number in the appropriate box; and Verification Code in the appropriate box. Then, when finished, click "Next."

Slide 8:

When you finish, a list of all of your child's contacts will appear. If your name appears, click on it to establish that this is your relationship to your child. If you are not there, click on "None of the Above" and click "Next."

Slide 9:

Congratulations! Your login is now complete. Your account is now linked your child. If you have another child, you can click on "Add Another Student to Your Account" and repeat this process.

Slide 10:

You now have access to the Aeries Online Portal. Your next step is to view the "Online Data Confirmation" video and complete this process.

Thanks again for using the Travis USD Online Portal! Have a great day!
