The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California *Education Code* sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

## Form A: Planned Improvements in Student Performance

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet academic performance index and adequate yearly progress growth targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

**LCAP GOAL #1** (LEA Goal): Use Multi-Tiered Systems of Support (MTSS) to improve student learning and close the achievement gap.

### SCHOOL GOAL:

1. Using the Multi-Tiered Systems of Support (MTSS), Travis students in grades 3-6 will show improvement in scoring at the proficient or advanced level on the Smarter Balanced Assessment in the spring of 2018. For grades TK-2, students will show improvement with language arts and math in both formative and summative assessments.

<b>What data did you use to form this goal?</b>	<b>What were the findings from the analysis of this data?</b>	<b>How will the school evaluate the progress of this goal?</b>
<ul style="list-style-type: none"> <li>• Smarter Balanced assessments in ELA and math</li> <li>• Aimsweb reading data</li> <li>• STAR reading data</li> <li>• CELDT data (measure of English learner proficiency in English)</li> </ul>	<ul style="list-style-type: none"> <li>• 33% of students in grades 3-6 are not proficient in ELA and 42% are not proficient in Math.</li> <li>• 75% of students who took the CELDT test in the 2016-2017 school year have moved up one level.</li> <li>• Based on the January 2017 reading fluency assessment, approximately 50% of students at each grade level were ranked Basic or Below Basic.</li> </ul>	<p>Progress will be evaluated based on student assessment data. Formative data to determine which students are on track to meet yearly reading and ELA progress will come from Benchmark Assessor Live!, STAR, and Smarter Balanced Interim Assessment Blocks, with progress benchmarks analyzed three times each year.</p> <p>The progress of English learners will be measured annually using the ELPAC, and Intervention Specialists will use tools available in our ELD curriculum for formative progress checks three times each year.</p> <p>Math data will come from teacher-developed benchmark assessments and Smarter Balanced Interim Assessment blocks, and will be analyzed three times each year.</p> <p><b>Where can a budget plan of the proposed expenditures for this goal be found?</b></p>

**STRATEGY:** 1) Provide professional development experiences to enhance the knowledge and skills of instructional staff and time to develop the essential components of a guaranteed and viable curriculum where all students have the time and opportunity to learn essential skills. 2) Implement a multi-tiered system to improve academic performance. 3) Develop systems to ensure all students graduate prepared for college and career.

**Form B: Centralized Services for Planned Improvements in Student Performance**

The following actions and related expenditures support this site program goal and will be performed as a centralized service. Note: the total amount for each categorical program in Form B must be aligned with the Consolidated Application.

**School Goal #5:** All English Learner students will increase one level on their CELDT test and the site English Learner Coordinator will meet with parents to communicate supports that are available to their child(ren) at home. Improve academic achievement for English Learners through centralized services provided by Educational Services.

Actions to be Taken to Reach This Goal <sup>1</sup> Consider all appropriate dimensions (e.g., Teaching and Learning, Staffing, and Professional Development)	Start Date <sup>2</sup> Completion Date	Proposed Expenditures	Estimated Cost	Funding Source (itemize for each source)
<ul style="list-style-type: none"> <li>• Ensure EL students make adequate yearly progress by providing supplemental instructional materials.</li> <li>• Provide technological supports for EL students to enhance language instruction.</li> <li>• Provide professional development that will facilitate learning and improve EL student proficiency in English.</li> <li>• Provide trainings for parents and activities at school sites.</li> <li>• Provide supplemental instruction for EL students.</li> <li>• Indirect costs</li> </ul>	July 1, 2017 through June 30, 2018	Supplemental instructional materials  Supplemental technology support for EL students  Professional development for adopted curriculum  Materials for parent trainings and activities  Before/After school tutoring for EL students  Indirect costs	\$4,074.92  \$10,000  \$1,000  \$500  \$3,000  \$379.08	Title III LEP for all actions

Note: Centralized services may include the following direct services:

- Research-based instructional strategies, curriculum development, school climate, and data disaggregation for instructional staff
- District-wide staff providing specific services to schools, e.g., English Language Development Coordinator, Teachers on Special Assignment, Instructional Coaches
- After-School and Summer School programs funded by categorical programs

<sup>1</sup> See Appendix A: Chart of Legal Specifics for the Single Plan for Student Achievement for content required by each program or funding source supporting this goal.

<sup>2</sup> List the date an action will be taken, or will begin, and the date it will be completed.

- Data analysis services, software, and training for assessment of student progress

Centralized services do not include administrative costs.

## Form C: Programs Included in this Plan

Check the box for each state and federal program in which the school participates. Enter the amounts allocated for each program in which the school participates and, if applicable, check the box indicating that the program's funds are being consolidated as part of operating a schoolwide program (SWP). The plan must describe the activities to be conducted at the school for each of the state and federal programs in which the school participates. The totals on these pages should match the cost estimates in Form A and the school's allocation from the ConApp.

Note: For many of the funding sources listed below, school districts may be exercising Categorical Program Provisions options (flexibility) with information available at <http://www.cde.ca.gov/fg/ac/co/documents/sbx34budgetflex.doc>.

Of the four following options, please select the one that describes this school site:

- This site operates as a targeted assistance school (TAS), not as a schoolwide program (SWP).
- This site operates a SWP but does not consolidate its funds as part of operating a SWP.
- This site operates a SWP and consolidates only applicable federal funds as part of operating a SWP.
- This site operates a SWP and consolidates all applicable funds as part of operating a SWP.
- N/A: This is not a Title I school.

<sup>3</sup> Title III funds are not a school level allocation even if allocated by the district to a school site. The LEA is responsible for fiscal reporting and monitoring and cannot delegate their authority to a site at which the program is being implemented. If Title III funds are spent at a school site, they must be used for the purposes of Title III and only for those students the LEA has identified for services. For more information please contact the Language Policy and Leadership Office at 916-319-0845.

## Form D: School Site Council Membership

California *Education Code* describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.<sup>4</sup> The current make-up of the SSC is as follows:

**Form E: Recommendations and Assurances**

The school site council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

- 1. The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
- 2. The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the Single Plan for Student Achievement (SPSA) requiring board approval.
- 3. The SSC sought and considered all recommendations from the following groups or committees before adopting this plan (**Check those that apply**):

- State Compensatory Education Advisory Committee \_\_\_\_\_ Signature
- English Learner Advisory Committee \_\_\_\_\_ Signature
- Special Education Advisory Committee \_\_\_\_\_ Signature
- Gifted and Talented Education Advisory Committee \_\_\_\_\_ Signature
- District/School Liaison Team for schools in Program Improvement \_\_\_\_\_ Signature
- Compensatory Education Advisory Committee \_\_\_\_\_ Signature
- Departmental Advisory Committee (secondary) \_\_\_\_\_ Signature
- Other committees established by the school or district (list) \_\_\_\_\_ Signature

- 4. The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.
- 5. This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.
- 6. This SPSA was adopted by the SSC at a public meeting on: December 19, 2017.

## Form G: Single Plan for Student Achievement Annual Evaluation

Pursuant to California *Education Code* Section 64001(g), the School Site Council (SSC) must evaluate at least annually the effectiveness of planned activities. In the cycle of continuous improvement of student performance, evaluation of the results of goals will provide data to inform and guide subsequent plans.

Annual evaluation by the SSC and local educational agency (LEA) is a critical part of the continuous cycle of improvement for a school. Furthermore, it is an integral component of the Compensatory Education (CE) Federal Program Monitoring (FPM) review process for Single Plan for Student Achievements (SPSAs). During an FPM review, the SSC and LEA must be able to provide evidence of the evaluation process to determine if the needs of students are being met by the strategies described in the SPSA.

The SPSA annual evaluation may be a summary description of the school's progress toward implementation of the strategies and actions in the SPSA. The report may also include a data analysis of the school's progress towards its student achievement goals based on local, state, or national assessment data.

During the evaluation process, it is important for the SSC and LEA to exercise caution about jumping to conclusions about the effectiveness or non-effectiveness of specific activities and programs without examining the underlying causes. The SSC and LEA should consider all relevant factors when evaluating the plan, such as the degree of implementation, student enrollment changes, and health and safety issues.

### SPSA ANNUAL EVALUATION: 2016-2017 Plan

#### Plan Priorities

- Identify the top priorities of the current SPSA.
  1. Priority 1: Continue to improve/modify Response to Instruction and Intervention (RtI<sup>2</sup>) system to provide effective, targeted support for students.
  2. Priority 2: Improve parent participation and involvement.
- Identify the major expenditures supporting these priorities.
  1. Priority 1 expenditures were at no cost to the site as the District's LCFF funds were provided for Priority 1.
  2. Priority 2 expenditures were at no cost to the site as the District's LCFF funds were provided for the continuation of the Watch D.O.G.S. program (Priority 2).

#### Plan Implementation

- Identify strategies in the current SPSA that were fully implemented as described in the plan.
  1. Provide professional development experiences to enhance the knowledge and skills of instructional staff and time to develop the essential components of a guaranteed and viable curriculum where all students have the time and opportunity to learn essential skills.

2. Ensure all teachers are appropriately credentialed (Williams Act).
  3. Provide all students with instructional materials as required (Williams Act).
  4. Enhance the knowledge and skills of instructional staff related to PBIS, classroom management, and managing the behavior of challenging students.
  5. Provide enrichment and hands-on learning in the arts, music, and STEM (science, technology, engineering, and mathematics) to improve academic achievement and enhance socio-emotional wellness.
- Identify strategies in the current SPSA that were not fully implemented as described in the plan or were not implemented within the specified timelines.
    - What specific actions related to those strategies were eliminated or modified during the year?
    - Identify barriers to full or timely implementation of the strategies identified above.
    - What actions were undertaken to mitigate those barriers or adjust the plan to overcome them?
    - What impact did the lack of full or timely implementation of these strategies have on student outcomes? What data did you use to come to this conclusion?

One strategy that was not fully implemented was providing parent education programs. The barrier that interfered with the implementation was a lack of staff participation. We attempted to address this problem by creating a district math team to present information at Family Math nights, but there were only a few grade levels represented. We used SBAC testing data to evaluate the effect of not implementing this SPSA strategy and concluded that our math proficiency scores may be attributed to parents not having a clear understanding of our math curriculum and how they can help their children at home.

Another strategy that was not fully implemented was providing updated equipment and technology that supports learning. The barrier that interfered with the implementation was we had old equipment that would break down and needed to be replaced immediately which left little funds for more updates. We attempted to address this problem by making purchases to replace the broken technology. Data was not available to evaluate the effect of not implementing this SPSA strategy.

#### Strategies and Activities

- Identify those strategies or activities that were particularly effective in improving student achievement. What evidence do you have of the direct or indirect impact of the strategies or activities on student achievement?

English Language Development Instruction	CELDT Score movement of one or more level was 100%
Provide training with ELA core instructional materials	A 11.0% Increase in ELA proficiency in SBAC testing

Increase and improve Tier II PBIS services with the Social Worker and Student Support Specialist.	Decrease in discipline referrals
Revise ELA pacing guides to align with California's new content standards.	A 11.0% Increase in ELA proficiency in SBAC testing

- Identify those strategies or activities that were ineffective or minimally effective in improving student achievement.
  - Based on an analysis of the impact of the strategies/activities, what appears to be the reason they were ineffective in improving student achievement?
    - Lack of timely implementation
    - Limited or ineffective professional development to support implementation
    - Lack of effective follow-up or coaching to support implementation
    - Not implemented with fidelity
    - Not appropriately matched to student needs/student population
    - Other \_\_\_\_\_
  - Based on the analysis of this practice, would you recommend:
    - Eliminating it from next year's plan
    - Continuing it with the following modifications: \_\_\_\_\_

Parent education programs	Lack staff to run event nights	Continue with the following modification: Recruit staff and schedule parent curriculum nights
Provide updated technology for classrooms	Old technology needed to be replaced which caused funds to be transferred away from updating to replacing technology	Continue with the following modification: Update technology in classrooms

#### Involvement/Governance

- How was the SSC involved in development of the plan?  
The School Site Council was involved in the development of the plan through the various meetings held throughout the year. This included discussions based on how to prioritize

the use of various funding sources, needs of the students, and school.

- How were advisory committees involved in providing advice to the SSC?  
There were no advisory committees involved in providing advice to the school.
- How was the plan monitored during the school year?  
The SSC received periodic reports throughout the school year.
- What changes are needed to ensure involvement of all stakeholders and adequate monitoring of planned activities and outcomes?  
We plan to merge the monitoring of the SPSA with the monitoring of the LCAP and to produce data reports throughout the year to monitor implementation of both plans. We plan to review the monitoring data with teachers and the SSC.

**Outcomes**

- Identify any goals in the current SPSA that were met.

The following goals were met:

- Goal 1: Continue to implement new English Language Arts curriculum and benchmark assessments.
- Goal 2: Continue to implement new math curriculum and benchmark assessments.
- Goal 4: Continue to focus on implementation of Positive Behavioral Interventions & Supports (PBIS) system.
- Goal 5: Continue to expand opportunities for students to participate in STEM (Science, Technology, Engineering, and Mathematics) learning experiences.
- Goal 6: Continue to expand opportunities for students to participate in the arts (visual arts, music, drama, dance).
- Goal 7: Ensure all students are provided the necessary materials needed for instruction.
- Goal 9: Improve academic achievement for English Learners through centralized services provided by Educational Services.

- Identify any goals in the current SPSA that were not met, or were only partially met.

- o List any strategies related to this goal that were identified above as “not fully implemented” or “ineffective” or “minimally” effective.

Goal 3: Improve/modify Response to Instruction and Intervention (RtI2) system to provide effective, targeted support for students	Increase learning time by providing a Tutoring Center after school hours to support English Learners and students performing below expectations in ELA and Math (not fully implemented).
Goal 8: Increase parent involvement (partially met).	Continue the Watch D.O.G.S. program (not fully implemented).

- Based on this information, what might be some recommendations for future steps to meet this goal?

Based on this information, we recommend that to meet Goal 3, Strategy 2, a robust and viable after school tutoring program must be established through the active recruitment of staff and student tutors. Meeting this goal will provide the much needed support for our students to be successful.

To meet Goal 8, Strategy 2, we must actively recruit male role models to volunteer in our school to participate in a variety of activities in classrooms, recess and lunch supervision, and other duties assigned by the principal. We also need to actively recruit teachers and staff to participate in family nights that give parents support in regards to helping their children at home with both ELA and Math. Having an active volunteer program will enhance our school climate which will have a positive effect on student achievement.
