**SECTION 1 – CALIFORNIA EDUCATION CODE SECTION 32281 (B)1), (B)(2)**

The school has partnered with local law enforcement and community responders to develop our Standard Response Protocol for threats such as active shooter, air pollution/chemical release, bomb threat, civil disturbance on campus, earthquake, fire, evacuation, severe windstorm/tornado, lockdown, lockout and threat of explosion/gas leaks/aircraft accident.

Our goal is to use a Standard Response Protocol to practice simple responses to emergency situations. Staff members have been trained in emergency response and hold regular drills with students. Precautionary measures are used to secure buildings such as fencing, security cameras and visitor sign in.

*Identify appropriate strategies and programs that provide and maintain a high level of school safety and address the school's procedures for complying with existing laws related to school safety [ED Section 32282 (a)(2)]:*

**Our school has implemented the following programs and strategies to maintain a high level of school safety:**

Center Elementary School Staff are committed to providing students a safe and productive learning environment. Safety is our number one priority. Over the past few years, as a site team we have implemented safety systems that strategically address safety needs in the area of student and staff physical safety, socio-emotional safety and school facilities.

**School Facilities:**

Our school facilities are maintained by Travis Unified School District maintenance and leadership to ensure that our site is in meets safety guidelines and regulations in the school site and district safety plans. Moreover, our custodians are key members of the plan reviewing site needs regularly and touring the school with the school administrator to discuss on-going projects, areas of concern, and the progress of work orders. Both day and evening custodians work diligently to ensure that all classrooms, school offices and school meeting areas are clean and in good working order. When there is a facility concern, staff report to site custodian and office staff for a work order to be placed that day. The work orders are routinely reviewed for completion. Larger scale improvement projects are communicated to district administration and followed through as funds allow.

**Staff/Student Physical Safety**

Center Elementary School has implemented the following programs and strategies to maintain a high level of school safety:

- Center Elementary School partners with the Fairfield Police Department and Fire Safety staff to practice drill procedures monthly. We practice: Fire, Earthquake, and Lock Down drills to be ready for emergency situations. We practice with the entire school community using the terminology Lock Out (Perimeters are locked, but business as usual within classrooms) and Lock Down (Doors are locked, lights are off, and students/staff are hidden). We have drills that are communicated in advance as well as unannounced that we might be ever ready in the case of an emergency.
- Each office staff member and designated teachers in each of the three wings as well as the special education rooms and outdoor classroom including the physical education teacher, custodial staff and nurse has a radio and within the classroom and in all supervision locations to

quickly communicate when there is a health concern or emergency. In addition, we utilize the radios to verify that a drill is taking place as part of our safety drills.

- Students are supervised by site staff before and after school as well as at every recess. We have a school rotation to ensure that all entrances/exits of the school are supervised daily.
- All visitors and volunteers to campus are asked to sign in directly at the front office on a paper log and volunteers, on the district, CERVIS computer. This provides us an accurate record of visitors and volunteers to our campus. All visitors to campus are asked to place a colored sticker on their upper body identifying them as an approved campus visitor. All volunteers are asked to wear a badge with lanyard while on campus.
- Through school weekly bulletins, monthly PTA newsletters, Center updated Website, Daily Marquee messages and all-call announcements, parents are informed of areas of concern and constructive solutions that help our school community partner together for student safety. These include traffic patterns, honoring cross walks, parking in designated areas, driving at safe speeds around campus, and keeping an eye out for all students to and from school.

### **Socio-Emotional Safety**

Our school values and the character traits we teach our students regularly is to Be Safe, Be Respectful and Be Responsible. Our mission is for the Center Elementary School Community to be committed to student learning, in a safe and nurturing environment, where everyone is held to high expectations and strives to reach their maximum potential. To achieve our mission, inculcating the character traits and addressing the socio-emotional and academic needs of every child we have a unified school Positive Behavior and Supports system that includes common classroom management plans, weekly communication from teachers and administrators, recognizing students for displaying our school core values of being safe, respectful and responsible. Each day we reinforce and recognize students who exhibit these traits by reciting our No Excuses University Character and Conduct Traits at Center and students are awarded Certificates of Achievement at local restaurants, positive shout outs during our morning message announcements and positive phone calls home recognizing our students' strengths. Each classroom conducts daily classroom character lessons, weekly Second Step (Social Emotional Learning), and each class has a break space to support students who may find themselves overwhelmed. We have a school social worker, intervention specialists, behavior support specialists, and a student support specialist on staff to additionally provide support to students and staff. We believe in a team approach to support students, staff, and families. We conduct Student Study Team meetings when students are not making typical progress. We conduct SART/SARB meetings to address attendance concerns and support students being present on time and every day. Our District Behaviorist conducts staff training to help accommodate and address our students' needs when they arise in the classroom. Moreover, key staff have been trained in NCI strategies to help implement de-escalation strategies when they are needed. Our staff is a supportive and nurturing staff seeking to help all of our students maintain and gain a positive learning experience in a safe environment.
