Background

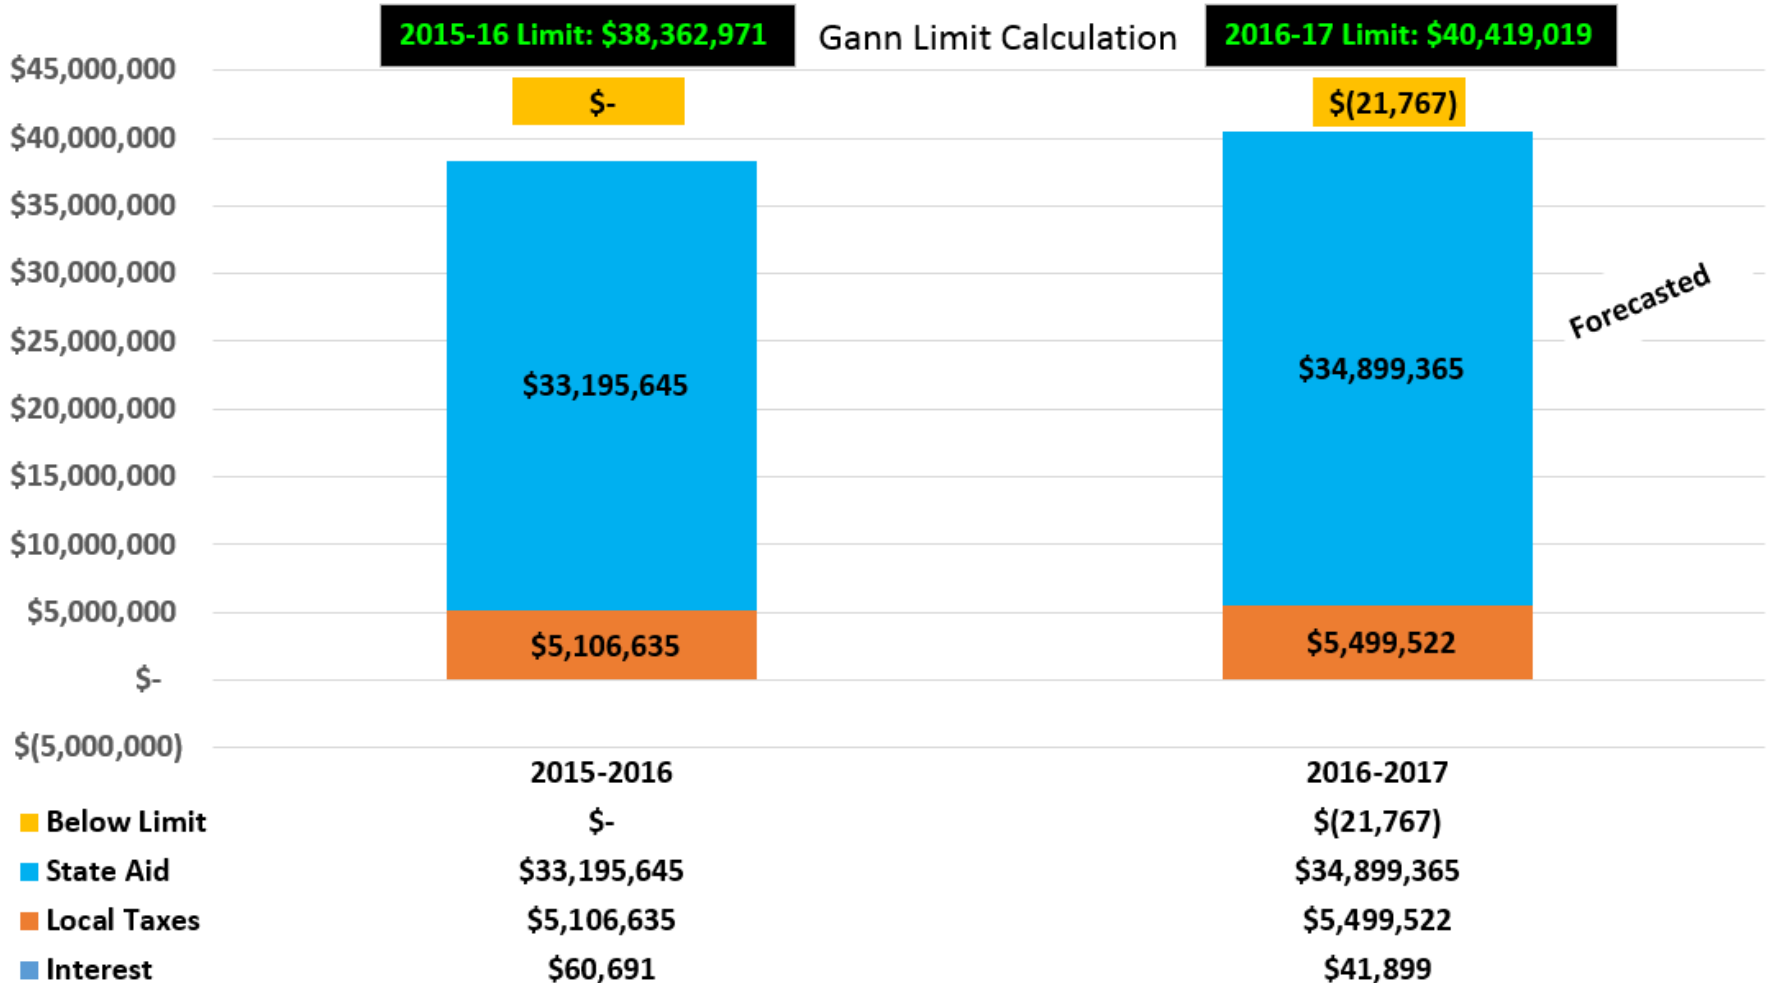

Established in 1979, the Gann Limit (named for Paul Gann, the author of Proposition 4, which amended the State Constitution to establish this limit) is intended to constrain the growth in state and local government spending by linking year-to-year changes in expenditures to changes in inflation and caseloads (ADA).

Education Code section 42132 requires that on or before September 15 of each year, the governing board of each school district adopt a resolution to identify appropriations limit for the district for the preceding fiscal year.

Gann Limit

We request you adopt this resolution:

- That the calculations and documentation of the Gann Limits for the 2015-16 and 2016-17 fiscal years are made in accord with applicable constitutional and statutory law.
- The appropriations in the 2015-2016 and 2016-17 Budgets do not exceed the limitations imposed by Proposition 4.
